

BUZZARD

SPORT

EUROPEAN PREMIERE

Tata Motors showcased the H5X SUV concept to the World at Delhi Auto Expo in February 2018, followed by Geneva International Motor Show in March 2018. Launched as the HARRIER in India in January 2019, the product received a resounding applause.

The BUZZARD SPORT Geneva Edition is Tata Motors' design rendition of the all-new HARRIER that provides a glimpse of the future generation of Tata Motors SUVs in terms of design, technology and sheer capabilities. It marries an extremely robust and capable architecture to our future facing design, offering a perfect combination of design and excellence. It will appeal to customers with its stunning exteriors and luxurious interiors. This thoroughbred SUV, engineered on OMEGA (Optimal Modular Efficient Global Advanced) Architecture, promises to offer exemplary driving dynamics on varied terrains.

Key highlights of BUZZARD SPORT Geneva edition:

- **Stunning IMPACT Design 2.0** language grabs the attention of the viewer with true SUV proportions, incredible road presence and sense of dynamism.
- **Born out of the legendary pedigree** – The BUZZARD SPORT is built on the new-generation OMEGA Architecture, derived from Land Rover's D8 Platform. This architecture offers exemplary driving dynamics, absolute safety and a refined in-cabin experience.
- **Top of the line uncompromised safety features** - The BUZZARD SPORT is packed with top-of-the-line safety features that lends greater confidence behind the wheel.
- **Engineered for performance** - The BUZZARD SPORT is powered by the cutting-edge Kryotec 2.0 Diesel engine, which provides an optimal balance between power and fuel economy. The Multi-Drive Mode 2.0 – the Engine Drive Modes (Eco, City, Sport) married to the ESP Terrain Response Modes (Normal, Rough, Wet) – ensures effortless handling over every kind of terrain.
- **Future-ready Connectivity and Infotainment** - A floating island touchscreen infotainment system with 8.8" high-resolution display offers amazing in-car connectivity and infotainment with an acoustically tuned audio experience.
